Work Experience

02/2023 – present **Hubbell** Bilbao, Spain
Senior Research Data Scientist

11/2018 – 02/2023 **Ormazabal** Amorebieta, Spain
Research Data Scientist

02/2018 – 06/2018 **Iberdrola** Bilbao, España
Paid internship - Optimizing the process of new supplies

09/2016 – 06/2018 **Particular**
Private Lesson Teacher

Education

2020 – 2025 **The University of the Basque Country (UPV/EHU)** San Sebastian, Spain
PhD in Computer Science & Artificial Intelligence (cum laude)

2018 – 2019 **International University of La Rioja (UNIR)** La Rioja, Spain
Master in Visual Analytics and Big Data

2013 – 2018 **The University of the Basque Country (UPV / EHV)** Leioa, Spain
Mathematics Degree

Publications

2025 **Estimate, Simulate, and Optimize: Approaches to Voltage Control in Smart Grids with On-Load Tap Changer Transformer and Advanced Metering Infrastructure**
PhD Thesis - University of the Basque Country - EHU

2025 **DNkS: A Distance-based Neighborhood k-Search Algorithm for Determining Meter-Transformer Connectivity in Low-Voltage Grids**
Sustainable Energy, Grids and Networks, Elsevier

2024	**Filter method-based feature selection process for unattributed- identity multi-target regression problem** 🔗 *Expert Systems with Applications, Elsevier*
2024	**Unified Framework for the Analysis of the Effect of Control Strategies on On-Load Tap-Changer's Automatic Voltage Controller** 🔗 *IEEE Transactions on Automation Science and Engineering*
2023	**Distribution smart transformer pilot experience for LV grid real time operation** 🔗 *CIRED* 2023
2022	**Introducing Guard Smart Meters: Voltage Predictions and its Implications for Smart LV Grid Operation** 🔗 *CIRED* 2022
2021	**Feeder Mapping and Load Flow Algorithms for LV Distribution Grids** 🔗 *CIRED* 2021
2019	**AI applied to Low Voltage Meters: Consumption Prediction and Connection to Feeders** *Master's Thesis*
2018	**The three-body problem** 🔗 *Undergraduate thesis project*
2020	**The voltage optimization algorithm associated with the Smart Transformer Context** 🔗 *Medium*

Projects

2023 – Present	**Aclara360** Aclara360 is a **cloud-native, modular software platform** from Aclara (Hubbell) that helps electric utilities leverage data from smart meters and grid-edge devices to improve distribution network operations
2021 – 2023	**IDENTICAL** *CDTI* Integral Development of Electrical Network Twins with Innovative Computation and ALgorithms
2019 – 2023	**FLEXIGRID** *H*2020 Interoperable solutions for implementing holistic FLEXIbility services in the distribution GRID
2019 – 2021	**ALGORITMO** *ELKARTEK* 2019 *From the Spanish acronym*: Localization Algorithms for Optimized Management of Smart Grids through Operational Monitoring Technologies.

Courses

2022 – 2022 **Specialized Models: Time Series and Survival Analysis**
Coursera

2021 – 2021 **Introduction to TensorFlow for Artificial Intelligence, Machine Learning, and Deep Learning | 16 h**
Coursera

2021 – 2021 **Convolutional Neural Networks in TensorFlow | 16 h**
Coursera

2021 – 2021 **Natural Language Processing in TensorFlow | 16 h**
Coursera

2021 – 2021 **Sequences, Time Series and Prediction | 16 h**
Coursera

2020 – 2020 **Artificial Intelligence: Reinforcement Learning in Python | 10 h**
Udemy

2020 – 2020 **Advanced Artificial Intelligence: Deep Reinforcement Learning in Python | 9 h**
Udemy

2020 – 2020 **Responsive Web Design, Front End | 20 h** Bilbao, España
Lanbide

2019 – 2019 **Machine Learning Specialization Course | 50 h** Bilbao, España
Mondragon University

2019 – 2019 **Deep Learning Specialization Course | 50 h** Bilbao, España
Mondragon University

2019 – 2019 **Introduction to Machine Learning | 10 h** Bilbao, España
BCAM - Basque Center for Applied Mathematics

Certificates

DeepLearning.AI TensorFlow Developer

Aptis General — *Global CEFR: C*

Driver's license — *Category "B"*
